Ryan was diagnosed with AIDS as a child in 1984. Ryan and his family worked to increase understanding of the disease. A few months after his death Congress passed the Ryan White CARE Act. The act funds services to people living with HIV/AIDS. The funds are used to support people living with HIV/AIDS in the management of their disease by improving access and removing barriers to care.

Client Services Program

Philosophy

The goal of this program is to ensure that you have the healthiest possible standard of living. We work towards this goal by ensuring that you have access to available medical care and medication, and by strengthening your ability to make informed choices about your treatment.

We embrace a client centered approach, encouraging you to fully participate in your care. We support and respect your choice and work with you to achieve your goals and the pace you choose. Our team works in a non-judgmental manner to empower, educate, advocate and to provide case management.

How can we help?
